

Ananth Seshadri is a Professor of Economics and Chair of the department of economics at the University of Wisconsin–Madison. He holds the Todd E. and Elizabeth H. Warnock Distinguished Chair. His areas of expertise are macroeconomics and public finance. He has written on a wide variety of topics including the causes and consequences of demographic change and the effects of technological change in accounting for various demographic patterns. His research has appeared in leading economics journals. He was awarded the prestigious Alfred P. Sloan Research Fellowship in 2006. In 2007, Seshadri and his colleagues, John Karl Scholz and Surachai Khitatrakun, were awarded the twelfth annual TIAA-CREF Paul A. Samuelson Award for Outstanding Scholarly Writing on Lifelong Financial Security for their paper Are Americans Saving ‘Optimally’ for Retirement. He has received several competitive research grants from the National Science Foundation, and the National Institute of Aging. He received his undergraduate degree in Management from BITS Pilani, India and his Ph.D. in Economics from the University of Rochester. He is a consultant at the State of Wisconsin Investment Board and a few Federal Reserve Banks.
