Diversity and Inclusion Statement

In principle and in practice, the Turnaround Management Association (TMA) and its chapters value and seek diversity and inclusiveness. TMA welcomes all industry professionals as members, leaders and participants consistent with the organization's diversity values.

With this in mind, TMA is committed to including representation from a broad range of identity groups in the membership and all of its leadership, programmatic activities, and business of the Association. Identity groups include and are not limited to age, appearance, disability, ethnicity, gender, gender identification, geographic location, nationality, professional level, race, religion, and sexual orientation.
